# ASKY MOHAMMED

SOFTWARE DEVELOPER

## PROJECTS

### Pharmacy Management System - Laravel.

Freelance

- This medical prescription app simplifies the prescription process for users and pharmacies, with features like registration, prescription uploads, and pharmacy quotations. It's built for efficiency using Laravel, HTML5, CSS, Bootstrap, Ajax, and MySQL. Users can easily accept or reject quotations, and the system notifies the pharmacy.

### Grocery Store Website React and Laravel

Freelance

- Using React.js for the frontend, I've created a seamless online shopping experience. Customers can browse a variety of products, add items to their cart, and make purchases with ease, all from the comfort of their homes.
- I'm diligently working on the backend site, leveraging the power of Laravel to bring robust inventory management features into play. Real-time stock updates, automated order processing, and secure payment integration will make the grocery store operations efficient and smooth.
